Getting started with TutoTuto

Try selecting a problem, writing an answer and getting AI feedback.

How to use

1 **Open the material**
Choose this material from your library.

2 **Turn the page**
Use the down arrow on the right to open page 2. The up arrow takes you back.

3 **Select a problem**
Use the selection button to enclose the problem and its answer space.

4 **Write your answer**
Use handwriting or text in the answer panel.

5 **Get AI feedback**
Press Grade, then read the result and explanation.

6 **Open social media**
Press View Social Media and choose a configured link.

7 **Return to studying**
Check the timer. When time is up, close the social media tab and return.

Calculate.

① 1 + 1 =

② 91 - 19 =

Write in English.

① 私はリンゴが好きです。

② 彼は背が高いです。

Write in Japanese.

① I go to school.

② I love cats.

Try one problem. Select both the question and its answer space.

AI grading requires an internet connection.

A little more practice

You turned the page. Try some new problems next.

Page 2 practice

1 Go back and return

Use the up arrow on the right to go to page 1, then the down arrow to return here.

2 Choose one problem

Pick a calculation or a translation problem to try.

3 Try AI grading

Select the question and answer space, write your answer, then press Grade.

Calculate.

① 7 + 8 =

② 32 - 17 =

Write in English.

① 私は犬が好きです。

② これは私の本です。

Write in Japanese.

① She plays tennis.

② We study English.

Get AI feedback on your answer, then try another problem the same way.

AI grading requires an internet connection.
